

**Complimentary Webinar Organized by InnovatioCuris  
on  
"Planning Healthcare in Smart Cities"  
Thursday 24<sup>th</sup> Aug 2017 (5:30 PM- 6:30 PM) IST**

### About Organiser

InnovatioCuris which is commonly known as "IC" is a unique organization, which brings deep healthcare expertise, a scientific rigour on applying global innovation models & management processes by leveraging IT to deliver healthcare at an optimum cost. Our Vision is to find methods, tool and techniques to deliver Qualitative health care at optimum cost at all levels.

In IC we have partnered with world-class academic institutes, government bodies, NGOs and healthcare organizations to create a collaborative ecosystem for piloting new interventions (systems and processes) to improve the healthcare delivery.

### What's in it for you?

IC has started awareness of latest trends of Innovations in health sector by conducting complimentary webinars. We brings you its seventh webinar on "**Planning Healthcare in Smart Cities**". In future Global and Indian experts would be invited to share their knowledge, experiences in Healthcare Innovations through free webinars.

### In this webinar we will discuss:

As we all know that building hundred smart cities is a flagship project of the current government in India. Healthcare is an integral part of any city planning. What it takes to do healthcare planning for a smart city. Hear it directly from the expert, who is working for the Uttar Pradesh smart city healthcare plan.

Smart city is a concept to develop the fundamental facilities of likelihood through the application of smart solutions, which are sustainable and futuristic. In smart city the focus shifts the policy of providers to people. One of the components of smart city is smart people with smart living. For these components there is a concept of smart health and health care. Our focus has to be "Public, Private, People Partnership (PPPP)" in place of present Public, Private Partnership. If we adopt these policies then we can aim for one of the favoured medical tourism destination.
