INTRODUCTION

Introduction to SIH 2020

The world's largest open innovation model was organized from August 1 to August 3 2020. Smart India Hackathon is a nationwide initiative to provide students with a platform to solve some of the pressing problems we face in our daily lives, and thus inculcate a culture of product innovation and a mindset of problem-solving. The first three editions SIH2017, SIH2018 and SIH2019 proved to be extremely successful in promoting out-of-the-box thinking in young minds, especially engineering students from across India.

However, SIH 2020 had hit a wall because of the COVID-19 situation. Which is where the experience of the InnovatioCuris (IC) team was handy. IC had already conducted two large hackathons, Ideathon and Samadhan for COVID-19 solutions and had a deep understanding of the processes involved in a virtual event.

The certificate is for the Smart India Hackathon 2020, Software Edition, Grand Finale (1st, 2nd & 3rd Aug. 2020). It is awarded to Jaya, a member of the team Portal_Pirates, for participating in the 'Smart India Hackathon 2020'. The certificate features logos for organizers (MHRD, MIC, Persistent, AWS) and a Platinum Partner (AWS).

Capacity building of NCs: Success Mantra for SIH 2020

The organizing team conducted online sessions using Zoom video conferencing software for all the nodal center (NC) staff over a week. In turn, the NCs were instructed to organize multiple such training sessions for the student teams and evaluators participating in their NCs. Hence, in a matter of three weeks, capacity building of over 10,000 people was achieved using Slack for collaboration, various SIH processes and other practical aspects on going live, social-media management, etc;

SIH Clinic: Having Fun and Solving Problems

The IC team also came up with an innovative concept of running a live troubleshooting meeting room over the three days using a Google meeting link (as link can be reused, easier to communicate), the NCs were encouraged to bring their problems and IC teams would quickly solve them. The fees for the clinic was a selfie of the client (NC representative) with the IC team, which generated some nice memories during the three days!

Digital footprint

Numbers quantify an event's impact, and being virtual we declare our numbers through website and Slack workspace analytics.
